I authorize the use of my personal data for the sole purpose of participation in the selection process, according to Article 6 of Law 15/1999 and Article 12 of RD 1720/2007.

ABOUT ME

Following the DevOps philosophy, I am looking to gain experience and develop myself in the systems administration sector. I am always open to exploring new professional goals.

USEFUL SKILLS

Ease of communication thanks to the participation as a speaker at scientific conferences and the realization and coordination of outreach lectures in schools and institutes. I can be useful in various work environments as a Sysadmin. Likewise, I have skills in Linux operating system management, use of containers with Docker, configuration management tools with Ansible, scripting in Python and bash, FrontEnd development, Kubernetes cluster management, and deployment of pipelines in Azure DevOps.

CAREER PATH

Store Assistant at PcComponents

November 2020 to January 2021

- Advice on components, computers, home appliances, and other electronic devices.

Devops Engineer Junior at Capgemini

March 2022 to June 2022

- Testing of an application for the deployment of pipelines in Azure DevOps.

EDUCATION

IES Alcantara High School

Baccalaureate of Research Science (2016-2018).

- I studied for a Baccalaureate of Research Science, which allowed me to participate in research projects within the IDIES framework, participate in congresses and even present my project at one.

Higher Degree in Administration of Networked Computer Systems (2020-2022)

- I was able to successfully complete my training as a network computer systems administrator technician.

DATA OF INTEREST

I have a class B driving license and my own vehicle.

Native Spanish and English level of C1.

I have good manners, which makes me a pleasant partner to work with.

I am collaborative, tidy and reliable.

I easily learn any function, so I can adapt to different work environments.

Availability of schedule: Total availability of time.

I authorize the use of my personal data for the sole purpose of participation in the selection process, according to Article 6 of Law 15/1999 and Article 12 of RD 1720/2007.

CERTIFICATION

I have official certificates in:

- Protection of personal data.
- Occupational Risk Prevention.
- Prevention of Occupational Risks in Offices and PVD.
- Organizational and technical aspects of teleworking.
- Cloud computing.
- Security and information management.
- Infrastructure provisioning with Terraform.
- Team management and leadership.
- Deployments with Ansible.
- Agile methodologies.

NO DEMONSTRABLE EXPERIENCE

During my development I was able to learn:

- Management and use of Terraform for AWS provisioning.
- Use of Ansible for provisioning a group of servers locally.
- Experience in managing Linux systems (Arch Linux and Ubuntu Server Linux).
- Experience in managing various services hosted on my server using docker and Kubernetes.

EMPLOYMENT STATUS

I am currently working as a DevOps Engineer at Capgemini Spain.

VOLUNTEER AND PROJECT MANAGEMENT EXPERIENCE

Between 2018 and 2020 I have worked organizing courses at the university, in addition to organizing within the student branch of the IEEE in Cartagena a series of informative talks of various kinds. I have also worked giving talks in schools and institutes as part of volunteer work for the university. All this on my own and always with professionalism.
